Data Science in Clinical Devices

WHITEHOUSE STATION N.J., Aug. 2, 2016 – Sysoft Corporation announced today the initiation of a new division for integrating advanced data science in clinical devices.

Initial projects include intelligence systems for cardiac, orthopedic and mobile health monitoring devices.

About Sysoft Corporation

Sysoft Corporation started operations in 1991 providing software products, services, and training for data science, eBusiness, mobile applications, device implementations, procurement sourcing systems, contract monitoring tools, clinical data science, big data predictive analytics, intelligent systems for aerospace, investment banking, supply chain and more. We focus on innovation, excellence, and client care. Our clients enjoy increased revenue, cost reduction, and predictive as well as prescriptive data driven intelligence.
