# Generative AI Powered eProcurement Portal **getall.com**

NY City, January 2, 2024 – Sysoft Corporation announced today the release of Generative AI powered eProcurement portal **getall.com**. The Software as a Service (SaaS) Portal provides AI driven supplier registration, solicitation management, auto bid tabulation, AI assisted proposal evaluation by human agents, plan holder list, Q&A interface, amendments, workflows, and award. AI powered procurement insights from a Spend Analytics system enables intelligent procurement.

Current and prospective users of the **getall.com** include Cities, Counties, States, Federal Agencies, Schools, Universities, NGOs and Corporations. **Getall.com** integrates with major ERP Systems, Office Productivity Tools, and other Sysoft products such as Contract Management and Spend Analytics system through an integrated repository.

## **About Sysoft Corporation**

Sysoft Corporation started operations in 1991 providing software products, services, and training for GenAI, data science, eBusiness, mobile applications, device implementations, procurement sourcing systems, contract monitoring tools, clinical data science, big data predictive analytics, intelligent systems for aerospace, investment banking, supply chain and more. We focus on innovation, excellence, and client care. Our clients enjoy increased revenue, cost reduction, and predictive as well as prescriptive data driven intelligence.
