All the Benefits of Sysoft® Policies & Procedures Management System Available via the Cloud

How can you realize the benefits of integrated policies and procedures management software without the time, cost, or resources required to implement an on-premise solution? Look to the cloud. With the Sysoft® Policies and Procedures (PnP) Life Cycle Management (PMS) solution, you can get the essential PnP management software your organization needs for a cost effective fee via Sysoft Software as a Service (SaaS).

Summary
Sysoft Policies and Procedures (PnP) Management SaaS provides government agencies, businesses or subsidiaries of large companies with a single software solution to manage critical policies, procedures, and compliance management processes in a cloud-based offering. You pay a cost effective fee, and Sysoft Cloud based SaaS takes care of the rest.

Business Challenges
- Improve access and distribution of information that can support decisions to manage your risk management and compliance needs
- Create policies and procedures (PnP) from templates increasing productivity and mitigating errors and risk
- Implement flexible approval process
- Distribute, monitor, manage, and report policies, procedures, and training videos with dashboards

Key Features
- **Complete, integrated functionality —** Develop policies and procedures efficiently with templates and use parallel and sequential workflows with notifications
- **Distribution and eSignature —** Maintain control with version managed distribution of documents with eSignature.
- **Document Repository —** Keep policies, procedures, compliance records, and videos readily available when needed with full search capabilities
- **Manage Risk and Insurance Certificates —** Rest easy knowing your risk is managed efficiently and insurance & other certificates are tracked
- **PnP Compliance —** Have a clear handle on expiring policies and procedures and make sure full compliance with terms and conditions

Business Benefits
- **Streamline PnP operations** with a complete, integrated, cost-effective on-demand solution that is built on proven technology
- **Reduce PnP cost** by avoiding the large capital investment required by traditional software implementations
- **Minimize ongoing PnP overhead** by decreasing the need to hire additional staff to create, manage, monitor, and support your PnP needs
- **Increase PnP agility and mitigate risk** by deploying blockchain based automated smart procedures to automate and reduce resource needs.

Best-Managed Policies, Procedures, and Risk Management Run Sysoft

PROVEN SOFTWARE DEPLOYED AS SOFTWARE as a SERVICE (SaaS)

Numerous government agencies, schools and universities, businesses worldwide recognize the benefits of using the Sysoft® PnP Management system. Designed specifically for policies and procedures creation, approval, distribution, eSignature, monitoring, and compliance management, the software lets you integrate all the critical functions you need to run your entire PnP life cycle management (PLM) process. It enables you to make decisions based on the most updated information through dashboards and visual analytics increasing compliance and reducing risk.

With the Sysoft Cloud based SaaS solution, organizations can realize the benefits of this software without the cost or complexity of an on-premise deployment. Managed and hosted by Sysoft, it provides Web-based access to our proven and powerful contract management software via a private cloud system. You can cost effectively get up and running quickly for a predictable performance that covers software, service, and support.

GET STARTED AND KEEP MOVING

To get started with Sysoft Contract Management SaaS, identify the contract management process you want to work with, sign up for the configuration and services you want, and you're on your way to results. You can implement the software faster than you can with an on-premise solution, and you'll have a scalable system guiding you along the way to help ensure a smooth deployment.

As your needs change, you can adapt and extend the software with add-on solutions and configurations that have been built by our software team and technology partners to fulfill industry-specific and other needs.

ACCELERATE YOUR TIME TO VALUE

By leveraging a software-as-a-service model and the expertise of Sysoft private cloud, you can dramatically accelerate time to value with Sysoft Contract Management SaaS. The software is configured to suit your processes and methods.

You can select the number of users and duration of your agreement on the basis of your business needs.

Sysoft PnP SaaS is automatically maintained and updated by Sysoft, so you always have the most current technology. Applications and servers are located in highly secure data centers that feature an array of physical and network safeguards to protect sensitive business data. With no hardware to manage or software to maintain, you can focus on your contract management needs, not IT.

REALIZE A LOW TOTAL COST OF OWNERSHIP

With Sysoft PnP SaaS, you can streamline Policies and procedures operations and mitigate business risks with minimal cost and complexity. Because the software is delivered as a service, you don't need to hire experienced IT staff to manage and support your software and its underlying IT infrastructure. The software also increases your PnP agility so you can rapidly deploy support for policy, procedures and organizational training processes to take advantage of new technologies.
